

ABSTRACT

Evolving information technology is now very fast. Especially for the community who live in big cities in Indonesia such as Bandung, which is one of the tourist destinations and the largest metropolitan city in West Java. Technological sophistication strongly encourages the emergence of the modern game in the public variety. One of them through electronic media gadgets. But look at the reality of the present, the game play using the gadget is not only a positive impact, but also the negative impact. Such as the lack of child socialization and interaction with friends and environment.

Along with the rapid development of the modern game, traditional game types native to Indonesia, particularly West Java traditional games also started in left and rare because of limited land, especially in urban areas and the negative impact of the phenomenon of playing gadgets in children who are less controlled.

Traditional Games Children's Center in Bandung West Java this is a solution and a tangible form facilities which provide for a play traditional games for children. Where the selected design will be themed "Adventure". The goal is to create a fun play experience for children. So that the existence of traditional games that could be played again less popular, because of the interest of the child itself. The atmosphere will be created natural shades, especially West Java city of Bandung, with 4 choices atmosphere, namely: tea plantations, rice fields, the waterfall and the atmosphere of a typical yard in West Java. Form available facility will be in 3-phase program with the distribution of the play area, namely compassion penance, penance custody, and penance grindstones. Where children will be given the knowledge of the types of traditional games through the Gallery and library facilities, and will be in custody in the classroom, studio and auditorium space. Then the child will be honed ability softskil and play diarea play indoor / outdoor and workshop space. As well as other services such as office space, restaurants, health units, praying and souvenir shops.
