**ABSTRACT** 

Bandung is known as Entertainment City (City Entertainment), which offers a

wide range of tours, one of which wista culinary. Currently very popular cafe

business and culinary entrepreneurs to bring new ideas. Roemah Kopi Bandung is

one of the favorite cafe in Bandung but there are shortcomings in store layout and

interior display.

The aim of this study was to determine the effect of store atmosphere on

consumer satisfaction on Roemah Kopi Bandung. This research is a descriptive

study with a causal approach. Nonprobability sampling with incidental sampling

method. Respondents in this study consisted of 100 customers Roemah Kopi

Bandung.

Data were collected from 38 statement then processed using IBM SPSS 20 and

analysis using multiple linear regression method. Descriptive analysis showed

that the store atmosphere has a percentage of 79.27% and customer satisfaction

Roemah Kopi Badung at 78.53%.

These percentages indicate that the store atmosphere and consumer

satisfaction Roemah Kopi Bandung included in both categories. Based on the

hypothesis of determination to get results that store atmosphere has the effect of

28.8% on customer satisfaction. While 71.2% are influenced by other factors

outside the store atmosphere.

**Keywords**: Customer Satisfaction, Store Atmosphere
