

Abstract

At the time this millennium century, education in Indonesia is growing very rapidly. From the start of education based on pure science, to education based purely religious. Society has enjoyed a variety of educational facilities is to enrich the knowledge of the needs. If we talk about the problems of education, education in Indonesia characterized by a faith-based education, or what we are familiar with boarding school. Has many boarding schools that developed in Indonesia, especially in West Java. There are schools that focus on education, but less attention to the importance of interior elements in a learning environment that is inhabited by learners in the long term. The convenience of learning can be felt with a cozy atmosphere and a functional space.

Key Word : interior design, boarding school interior design, cozy
