Music in indonesia started to had a passion strong seen many started springing new musicians. The emergence of another musician will come from two sides, indie label as well as major label. Most of the community was not understand the indie music scene that really is not perceived as easy to assimilate for reasons of a genre of education and the information that is not on to the community.

Skena indie music in indonesia look different between first and now , due to: there is a lack of appreciation of the community of the music local; there is a lack of community awareness about financial loss and moral of music piracy local; and there is a lack of public awareness about crime of music piracy .Therefore necessary design book illustration that gives education information about how and support and reward indie musicians .

Based on data obtained from several methods of interviews, observation and literature study that can help to analyze, writer design books illustration support musician indie in indonesia. Election media book because book physical that can be enjoyed for a long time by lover music.

Through a book illustration expected youth and the music lovers to return appreciate music with good and right kind of buy physical records of musicians who popular, buy merchandise and attended concert with buy tickets and not restive. In the end skena music indie in indonesia can be active again in appreciation and popular music by the community lover.

**Key Word : Illustration Book, Local Indie Music, Support Indie Musicians**
