

ABSTRACT

The Tourism Department and West Java Cultural Office is the place for managing all activities that set and build many kinds of cultures. And tourism that became West Java Potential. And has very important role in introducing the natural tourism and keep West Java's cultures everlasting and more develop through coordination with the people in intern government at Tourism Department and West Java Cultural Office. This office became very important facilities for implementation the tourism management events and West Java culture. But, the rooms are less for accommodating all activities in the office and the office's room design can not support the employee's job producting when they are presenting the tourism potential and West Java's culture. So that can not meet the user's comfortably. Therefore it need interior re-design planning to that office with move it to the building that can facilitate all kinds of importing activities with some increases of the rooms which be related with management and development of tourism and West java Culture.

Keyword : cultural and tourism office of West Java, government office, interior.
