

REDESIGN OF SUPPORTING FACILITIES IN WEST JAVA ISLAMIC DAKWAH CENTER WITH APPROACH OF ISLAMIC VALUES

Abstract

Sundanese society is commonly known as a religious community, as in any fundamental outlook on life is always on the teachings of Islam. Aware of that case, the West Java provincial government wanted a work that can be a milestone in the rise of Muslims in West Java, namely Islamic center. Islamic Dakwah Center is the approach of the term Islamic center, which is abbreviated by the name PUSDAI.

Construction of West Java Islamic Center is solely intended not only to accommodate Islamic activities for the people of West Java, but also as a means of development and spread of Islam and Islamic culture in West Java. The initial building concept of the Islamic Da'wah Center refers to a Middle Eastern style with Sundanese culture, but the concept is not whole applied to any supporting infrastructure that has not been the creation of an atmosphere of spirituality and local wisdom of the Sundanese culture on supporting Islamic Dakwah Center of West Java in order to encourage memory and provide a breath of worship in order to submit to Allah swt. Because the area of West Java Islamic Da'wah Center is a place of worship intended to increase and to deepen the sense of religious not only be felt by the mind but also can be felt physically.

Keywords: Pusat Dakwah Islam Jawa Barat, Islamic Architecture, Culture Sundanese, Islamic value.
