

ABSTRACT

In this era of globalization, there have been many cultures of foreign countries coming into Indonesia and can be well received by the community including South Korea. The cultural centre is the place to provide/provide information about the culture of a place and nurture those who are studying, and participating in the education, knowledge, and culture of a region. South Korea Culture Center is one of the facilities that can support to get information and knowledge about the culture of South Korea. However, not providing facilities place South Korea Culture Center in the city of Bandung to be a source of information and learning about the culture of South Korea, so that people who want to know Bandung and studied the culture of South Korea the difficulty of getting information. Facilities provided as educational facilities in the form of Korean language education spaces, traditional and modern dance training in korea, Korean music and vocal training workshop, and a library, as well as recreational facilities in the form of a gallery, auditorium, cafeteria, and function room. South Korea country cultural center which has existed at this time according to the results of a comparative study does not display elements of Korean traditional culture at penggayaannya. The cultural element that is applied in the form of the use of natural materials such as rocks, wood, concrete or even straw, a typical element of Korea such as berstiker, wall pictures, photo frame that describes the culture of Korea and difasilitasinya the Gallery remains as an overview to find out which elements of culture that exists in the country of Korea in the form of 3D and 2D.

Keywords: Cultural Centre, South Korea, Bandung.
