ABSTRACT

The Food Distribution Division of the Food Security Agency of Sukoharjo Regency in carrying out its duties has the constraints of strategic commodity price panels not yet connected to the internet, resulting in a food price panel determined by the Food Security Agency of Sukoharjo Regency not yet accessible by the wider community. The method used in this work is the prototype method. Tools used are PHP and MySQL. The test used is Black Box Testing. The result obtained is a Web Based Food Distribution on Sukoharjo Food Security Agency Geographic Information System.
