

Abtrak

Library is a building where information sharing, where the learning process independently conducted by pemustaka. But in this modern era electronic media to be an option and quite promising because it is fast in the provision of information, and the book becomes a supporting medium in finding information, with the advancement of the community prefer to find information at home or a place that has internet access. Development that provides good and bad impact on libraries, such as area mastery, and the addition of building structures. Such as the increase of work area facilities that provide convenience to the officers in the activities and lack of comfort in the area of reading and collection, and there are problems in lighting and circulation. Plus the lack of attraction of the library to attract readers. And it causes less library visitors every year. Because redesain in the library to be an alternative to change the previous library less good to be better. Such as the arrangement of the work area, collection and reading, providing a good circulation and a more interesting reading area and a comfortable collection area. By applying the concept of "modern and fun" that describes the present and fun library. And can attract readers to come back to the library as well as a library that can be proud of the State University of Padang.
