ABSTRACT

A franchise is one business that has a greater chance and level of success,

especially franchises that already have enough known branding. Develop a

franchise business that does have its own challenges and can be run well to get

greater pleasure. Franchise Indonesia continues to grow and develop. One of the

background of growth is the economic package rolled out by the government in

providing incentives in entrepreneurship.

Healthy competition is done in order to reach consumers as much as

possible, required to make different designs to attract the attention of consumers.

the use of store atmosphere in Labbaik Chicken Cileunyi can be a way of

influencing consumer purchasing decisions, but the income of Labbaik Chicken

Cileunyi has decreased every year.

This research was conducted to find out how much influence of store

atmosphere to purchase decision. This research is a quantitative research with

descriptive and causal. The sampling tehnique used in this research is non-

probability sampling with purposive sampling method to 100 respondents, where

respondents in this research is customer of Labbaik Chicken Cileunyi.
