

PREFACE

All praise of gratitude writer prays to the presence of Allah SWT because His grace and guidance authors can complete the final project with the title “ANALYSIS AND DESIGN OF MPLS-TE AS A NEW NETWORK TECHNOLOGY IN PT. XYZ USING NETWORK DEVELOPMENT LIFE CYCLE (NDLC) METHOD”. The purpose of this final project is to fulfill one of the requirements of graduation level of S-1 program of Information Systems Studies Faculty of Industrial Engineering, Telkom University Bandung.

In this study, the authors get guidance, criticism, suggestion, and motivation greatly from the various parties. Therefore, the authors would like to thank:

1. Mr. Avon Budiono., ST., M.T. First Advisor, thank you for the guidance during this research process.
2. Mr. Umar Yunan K. S. H., ST., M.T. Second Advisor, thank you for the guidance during this research process.
3. Mr. Fairy Heryana S.kom. Field coaches who have assisted in the search for data during this research process.
4. Resources in data collection during the process of this research.
5. Evan Adi Prasetyo and Mahardika Nila Kandi. The team in this research.

The author realizes that the writing of this undergraduate thesis is still far from perfection. With all humility, the authors hope that all the shortcomings that exist in this final project can be used as learning materials for better research in the future.

Bandung, 28 June 2018
