*A tour is a journey that does to see the beauty of other areas, havig fun, and increasing our insight. Malang Regency is one of Malang Regions known as tourist destination area. Malang Regency has approximately 69 tourist destinations that can be visited by tourists. The tourist who visit Malang Regency are still dominated in Balekambang Beach. Though there are many others natural tourism destinations that can become a destination, many people don't know about it. It happened because of the lack of information about the places that have a natural view that can be a tour place. The author has conducted data collection through observation method, interview, and literature study. So, the information about the media in the form of photography books that can display the beauty and provide information about nature tourism place in Malang regency are needed.*
