

ABSTRACT

Indonesia is one country that has a variety of uniqueness, one of which is the Gunung Padang Megalithic Site. "Padang" can be interpreted as "bright" or "light", Gunung Padang can be a "mountain of light" or "Mountain of Enlightenment" soul. That is why Gunung Padang is sacred, a clean and holy place, so it is strictly prohibited for just anyone comes there. Gunung Padang as the biggest Megalithic Site in Southeast Asia, with a peak standing 5 elongated terraces. Gunung Padang Megalithic Site, but another fact is that when visiting, they only consider the site of Gunung Padang as a place of rock ruins what actually happened before. The author wants to convey the message that Gunung Padang has many interesting uniqueness. this illustrates how to live in the Megalithic era. This design is carried out with study methods in similar books, interview methods with experts in their fields, research tools and target audiences, and SWOT analysis as a comparison and conclusion. The expected results of the research in making the Gunung Padang mobile application media can provide convenience in conveying information while attracting public attention to learning the previous culture.
