

Documentary Movie Production “Behind The Limitation”

Abstract :

Education is the most important in life. In Indonesia, there are many education facilities including education for people with special needs or people with disability. Thus, government builds special schools for those who have physical and mental disorder in order to get proper education. The example is in Bandung city, Sekolah Luar Biasa Negeri A Bandung city for blind people or what we commonly call blind disabilities. Therefore, this school was built for them to obtain the same education as normal people. School for blind disability people has certain way of learning, they use braille or writing that appears if they are touched. One of outstanding student is Ahmad Abdul Azis who was the winner of reading Al-Quran fluently even though he has to be guided by his teacher. Azis is a blind child who has big passion to have achievement and ambition even though he has limitation. Thus, the author is interested to make a documentary movie with duration of 7 minutes to depict how disability person learn until he gets achievement.

Key Words : Documentary Movie, Blind Disability, Al-Qur'an in Braille, Special School, Bandung City
