

Abstract

The tourism sector is currently experiencing a very significant increase. So that now, tourism is one of the skills that are in demand by teenagers. In addition, the development of the tourism industry is currently encouraging the needs of trained and ready-to-work human resources. Therefore, tourism education is very much popping up so that every existing educational institution needs adequate facilities and can create professional and responsible graduates

Telkom Tourism Vocational School is located on Jl. Palasari No. 1, Lengkong, Bandung is one of the vocational high schools in the field of tourism. In the midst of this tourism development, the challenges and demands of the industry will be even greater. This is an opportunity for this national level Vocational School to become the most dominant vocational school in the tourism sector. These reasons also underlie the interior design project of Telkom Bandung Tourism Vocational School. This design is expected to be able to make Telkom Tourism Vocational School one of the national level tourism schools that have facilities in accordance with applicable regulations with an atmosphere that can improve professionalism for students and their students.
