

ABSTRACT

Muhammadiyah's orphanage is one of Muhammadiyah's charitable efforts in the social field. Muhammadiyah has 318 orphanages, compensation and family care in Indonesia. Social activities in orphanages in addition to caring for and fostering children living in homes also fostering, caring for and financing underprivileged children outside the institution who still have parents. the activities carried out at the Muhammadiyah orphanage included fostering children in terms of religion, education and children's skills. In addition, Muhammadiyah is trying to instill organizational and religious values to orphans to prepare successive cadres of Persyarikatan Muhammadiyah. Based on the results of the survey, there are still many orphanages that have not paid attention to the child's psychology related to different privacy needs at each age level, the need for a home atmosphere in an orphanage, the need for special coaching facilities such as computer rooms, music rooms, skill rooms and libraries. in some cases of the Muhammadiyah orphanage, there are no special facilities to support kemuhammadiyah education such as discussion rooms and organizational space. To maximize this, the interior design of the muhammadiyah orphanage in Magelang is done with the approach of the Islamic life values of the Muhammadiyah members so that the formation of children orphanage children who have kemuhammadiyah values and are prepared in terms of psychological, knowledge and skills to become cadres of Persyarikatan Muhammadiyah.
