

ABSTRACT

Learning media Indonesian independence history is a learning media that can assist teachers in presenting the material IPS that much. Currently, teachers at SDN Taman Kopo Indah teach the material IPS using the book which many carried like other teachers. Meanwhile, learning by using multimedia can attract a high learning of their students because combined with multimedia. Therefore, it is need to be designed an learning media multimedia-based which can it easier for teachers to teach and know the level of mastery of the material from their students. This learning media can be used by teachers for deliver material in the form of text, sound, video, images and animation attractive, and can be used for the evaluation of learning in each chapter which has been taught. Besides presenting the material and evaluation of learning, this learning media there is a game to hone the skills of students in a given brain.
