ABSTRACT.....	6
FOREWORD	7
CONTENTS.....	8
FIGURE LISTS	11
TABLE LISTS	14
LIST OF ACRONYMS AND SYMBOLS	15
LIST OF TERMINOLOGIES.....	16
CHAPTER I PREFACE	18
I.1 Backgrounds	18
I.2 Problems Formulation	22
I.3 Purposes.....	22
I.4 Scope of Problem.....	22
I.5 Benefits of study	23
I.6 Systematics Writing.....	23
CHAPTER II THEORITICAL BASIS	25
II.1 Digital Image Processing	25
II.1.1 Digital Image	26
II.1.2 MATLAB (Matrix Laboratory).....	30
II.1.3 Convolution.....	31
II.1.4 Edge Detection	32
II.1.5 Sobel operator	33
II.1.6 Gaussian Lowpass Filter	34
II.1.7 Harris Corner Detection.....	35
II.2 Industrial Automation	36
II.2.1 Sensor	39
II.2.2 PLC (Programmable Logic Controller).....	40
II.2.3 HMI (Human Machine Interface).....	40
II.3. Previous Research	41
CHAPTER III RESEARCH METHOD	45
III.1 Conceptual Method.....	45
III.2 Systematics Research.....	47

III.2.1 Identification of Problems	47
III.2.2 Determination of Problem Solutions.....	47
III.2.3 Data Collecting and Processing	47
III.2.4 Equipment Design (Miniplant)	48
III.2.5 Simulation Tool.....	48
III.2.6 Evaluation	49
CHAPTER IV SYSTEM DESIGN.....	51
IV.1 System Identification	51
IV.1.1 Existing System Identification.....	51
IV.1.2. Problem Identification on Existing System.	58
IV.2. Improvement System	58
IV.2.1. Process Scenario	60
IV.2.2. System Requirements Identification.....	65
IV.2.3. Software Configuration.....	68
IV.2.4. Rig Design	80
CHAPTER V DATA ANALYSIS AND SYSTEM DESIGN RESULT	81
V.1. Sytem Analyze and Testing	81
V.1.1. Components Testing.....	81
V.1.2. Human Machine Interface Testing.....	82
V.1.3. PLC Program Testing.....	83
V.1.4. Time Comparison.....	85
V.2 Image Processing Analysis	86
V.2.1. RGB to Grayscale analysis.....	86
V.2.2. Averaging filter analysis	89
V.2.3. Applying Sobel Edge Detection.....	90
V.2.4. Applying Gaussian LPF (Lowpass Filter).....	91
V.2.5. Calculating the Corner Point.....	96
V.2.6. Distiguish the corner point from noise.....	97
V.2.7. Calculating the sides length to perform angle calculation	98
V.2.8. Calculating deviation value.....	101
V.2.9. Camera Distance and Lux Intensity analysis	102
V.3. Calculating error value.....	103
CHAPTER VI CONCLUSIONS AND SUGGESTIONS	104
VI.1. Conclusions.....	104
VI.2. Suggestions	104
REFERENCES	105

APPENDIX..... 108
