

LIST OF TABLE

Table II. 1 Adjustment Factors using Westinghouse	10
Table II. 2 Table Allowance Factors	11
Table II. 2 Table Allowance Factors (continue)	12
Table IV. 1 Average Cycle Time of Borrow-Return Activities.....	35
Table IV. 2 Uniformity Testing for <i>Loading tools to mini truck</i> Activity	36
Table IV. 3 Adjustment Factors	40
Table IV. 4 Allowance	40
Table IV. 5 Standard Time of Tools Crib Activity	41
Table IV. 6 Symbols Description.....	44
Table IV. 7 Process Activity Mapping (Current State).....	45
Table IV. 8 Activity Flow of Non Value Added Time	48
Table IV. 9 Example of Average Stay Calculation.....	49
Table IV. 10 Example of Consumption Rate Calculation	50
Table IV. 11 Final Result of FSN	51
Table IV. 12 SKU Classification and Priority.....	51
Table IV. 13 Column Requirement.....	52
Table IV. 14 Distance of each Column to In/out Point in Rack Area.....	55
Table IV. 15 Vertical Time for 5 level of Rack	56
Table IV. 16 Total Time and Priority of Routing Tools Placement.....	56
Table IV. 17 The Detail Description of the Label	57
Table IV. 18 Demand Probability of SKU.....	58
Table IV. 19 Tools in Range with Demand Probability.....	58
Table IV. 20 Tools in Range with Demand Probability (Continued)	59
Table IV. 21 Tools location	59
Table IV. 22 Travelling distance.....	60
Table IV. 23 Searching time of Existing and Improvement Condition	61
Table IV. 24 Process Activity Mapping (Future State).....	64
Table IV. 24 Process Activity Mapping (Future State).....	65
Table V. 1 Result Classification of FSN Analysis	66
Table V. 2 Comparison between Current State and Future State	68
