ABSTRACT

SKU stands for General Skills Standards. While religious is an element that reflects the vertical relationship between man and God Almighty. When combined into Religious SKU, then the definition is the standard of some of the activities that implement vertical relationship between man and God Almighty. Religious SKU has been applied in teaching and learning in elementary Ar-Rafi as guidelines for daily activities contained in the religious field Children's Books Sholeh. The book contains several components, one of which is the Test Sheet Memorizing the Qur'an. Test recording process of memorizing the Quran elementary students Ar-Rafi 'is done by writing rote in Children's Books Sholeh then entered back into Microsoft Excel Data Memory Students. It is difficult for teachers to record student memorizing the Qur'an. For the sake of convenience in recording the data, then build applications supporting religious sku competency test based website that has a database and well integrated. Application support religious sku competency test is a technology-based website that serves to ease the job of religious teachers and homeroom in SD Ar-Rafi, in terms of documenting all daily religious activities relating to components Sholeh Children's Books. This site facilitates homeroom or religious teachers SD Ar-Rafi in the process of data storage, report generation, and a good filing.

Keywords: Religious SKU, Sholeh Children's Books, SKU of SD Ar-Rafi, Religious of SD Ar-Rafi.
