LIST OF FIGURES

1.2 Diagram Blok MC-CDMA System 4 1.3 Rotate QPSK constellation 5 2.1 Convolutional encoder structure C (3,1,2) [1] 7 2.2 Diagram trellis for C (3,1,2) [1] 7 2.3 16 QAM Constellation [1] 8 2.4 Multicarrier System 9 2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4
1.3 Rotate QPSK constellation 5 2.1 Convolutional encoder structure C (3,1,2) [1] 7 2.2 Diagram trellis for C (3,1,2) [1] 8 2.3 16 QAM Constellation [1] 8 2.4 Multicarrier System 9 2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 3.6
2.2 Diagram trellis for C (3,1,2) [1] 8 2.3 16 QAM Constellation [1] 8 2.4 Multicarrier System 9 2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles
2.3 16 QAM Constellation [1] 8 2.4 Multicarrier System 9 2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 3.4 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different
2.4 Multicarrier System 9 2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 3.4 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.5 CDMA System 10 2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.6 OFDM System 10 2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA Spreading in Time Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.7 IFFT process [2] 11 2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA Spreading in Time Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.8 Subcarrier of OFDM [2] 12 2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA Spreading in Time Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.9 Cyclic Prefix of OFDM [2] 13 2.10 MC - CDMA Spreading in Frequency Domain 14 2.11 MC - CDMA Spreading in Time Domain 14 2.12 MC-CDMA 16 2.13 16 QAM Constellation 17 2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.10MC - CDMA Spreading in Frequency Domain142.11MC - CDMA Spreading in Time Domain142.12MC-CDMA162.1316 QAM Constellation172.14Small scale fading [3]192.15The process of adding AWGN203.1Model system223.2Downlink system223.3Flowchart of Rotated Modulation253.4Simulation of 16 QAM263.5Block diagram of MC - CDMA264.1Comparison chart of performance MC-CDMA system with Rotated Modulation304.2comparison of system performance with different angles314.3comparison of system performance with different speed32
2.11MC - CDMA Spreading in Time Domain142.12MC-CDMA162.1316 QAM Constellation172.14Small scale fading [3]192.15The process of adding AWGN203.1Model system223.2Downlink system223.3Flowchart of Rotated Modulation253.4Simulation of 16 QAM263.5Block diagram of MC - CDMA264.1Comparison chart of performance MC-CDMA system with Rotated Modulation304.2comparison of system performance with different angles314.3comparison of system performance with different speed32
2.12MC-CDMA162.1316QAM Constellation172.14Small scale fading [3]192.15The process of adding AWGN203.1Model system223.2Downlink system223.3Flowchart of Rotated Modulation253.4Simulation of 16 QAM263.5Block diagram of MC - CDMA264.1Comparison chart of performance MC-CDMA system with Rotated Modulation304.2comparison of system performance with different angles314.3comparison of system performance with different speed32
2.1316 QAM Constellation172.14Small scale fading [3]192.15The process of adding AWGN203.1Model system223.2Downlink system223.3Flowchart of Rotated Modulation253.4Simulation of 16 QAM263.5Block diagram of MC - CDMA264.1Comparison chart of performance MC-CDMA system with Rotated Modulation304.2comparison of system performance with different angles314.3comparison of system performance with different speed32
2.14 Small scale fading [3] 19 2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
2.15 The process of adding AWGN 20 3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
3.1 Model system 22 3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
3.2 Downlink system 22 3.3 Flowchart of Rotated Modulation 25 3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
 3.3 Flowchart of Rotated Modulation
3.4 Simulation of 16 QAM 26 3.5 Block diagram of MC - CDMA 26 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation 30 4.2 comparison of system performance with different angles 31 4.3 comparison of system performance with different speed 32
 3.5 Block diagram of MC - CDMA
 4.1 Comparison chart of performance MC-CDMA system with Rotated Modulation and conventional modulation
ulation and conventional modulation304.2comparison of system performance with different angles314.3comparison of system performance with different speed32
4.2comparison of system performance with different angles314.3comparison of system performance with different speed32
4.3 comparison of system performance with different speed
4.4 Block Diagram OFDM system with CRM 34
4.5 comparison of CRM performance system with OFDM and MC - CDMA -34
4.6 comparison of OFDM using different CRM
4.7 comparison of system performance with different number of interleaver . 36
4.8 comparison of non CRM system performance with same number of inter- leaver
4.9 The relationship between performance CRM with different speed
