

ACKNOWLEDGEMENT

First of all, I am grateful to Allah SWT, for establishing me to complete this thesis. I wish to express my sincere gratitude to my supervisors, Dr. Maman Abdurohman, M.T and Fazmah Arif Yulianto, ST, MT for the guidance and the opportunities he has afforded me during this research. My sincere thanks to all Lecturers, Dean, Head of Department, and Administrative Department of Informatics Engineering Telkom University, for the constant encouragement during my study in last three years.

I also take this opportunity to express my gratitude to PT. Telkom Indonesia who have lent much support all along my master study and thus enabled me to concentrate on my work and to my parents and family especially my beloved wife, who inspite of enduring the odds, have supported me all along and gave me this opportunity to study at Telkom University. Their endurance and patience have been the driving forces of my determination.

And finally, I would like thank my close friends who have been all along with me, supporting and advising me on my endeavors. Their company have always enlightened my spirit.
