

## Abstract

Today, the urban density of activity in urban society lead to high demand for travel and rest awhile. Hotel Resort is an accommodation that provides tourist facilities and resorts. The comfort of visitors is a major aspect that must be considered in tourism, especially thermal comfort. So it takes a design Hotel Resort that maximizes thermal comfort in it. Plateau is the main option to maximize natural air. Bandung is a highland town which has a variety of tours and beautiful landscape, so aspects of the thermal comfort will be easily achieved.
