

## PREFACE

Assalamu'alaikum Wr. Wb.,

Praise the presence of Allah SWT, blessings and His guidance Author can finish the final project with the title “**Storage Allocation Improvement By Using Class-Based Storage Method At Raw Materials Warehouse 1 of PT. SMA**”. Author preparing this final project is a prerequisite for completing bachelor program at the Faculty of Industrial Engineering Telkom University.

The author has realizes that this final is still far from perfection. This is due to limitations by the author. Therefore, for repairing this final project, suggestions and constructive criticism is expected.

With all humility, the authors hope that this final project can be developed towards a better and useful for readers and writers, and for education in general.

Wassalamualaikum Wr. Wb.
