

## ACKNOWLEDGMENTS

I would like to express my sincere gratitude to my supervisor Prof. Adiwijaya for the continuous support of my master study. His motivation and guidance helped me in all the time until i am finish this thesis.

I would thanks to all my lecture in Telkom University, Graduate School of Computing that always gives me knowledge and inspiration to never stop to learn. I would also thanks to all graduate school staff management who help me complete the study.

The last but not least, I would thanks to all my brothers and sisters for their wish and support. I would also thanks to classmates and friends in graduate school Telkom University.
