

ABSTRACT

This era of technology makes it common for people to have a gadget, including toddler. Based on Asian Parent's data, 99% kids playing with gadget at home. The overuse of gadget can cause a decreasing social skill in kids, in severe case the kids will look down on their parents. Lacking in moral value and real social interaction.

Parents will need a media to teach children good manners, as well an alternate media aside from gadget. According to Elly Risman, a kid learn through playing, telling a story, and singing. Then writer designing a media which can be used as story book or picture book, and educating kids good manners within games as well.

The goal of designing this media is to give parents alternate media aside form gadget and give kids proper education about manners but in a fun way. So as Indonesia will going to have a golden generation of children supported by smart parents who knows good parenting.
