LIST OF TABLES

Table I.1 Export Volume Non-Oil Industry Data TPT (BI, 2016) 1
Table I.2 Observing Existing Production Data (PT. BIG, 2016).....4
Table II.1 Information of Previous Research.....41
Table II.2 Information of Previous Research (Cont.) 42
Table IV.1 Jacquard Card Spesification 48
Table IV.2 Existing Punching Machine Spesification.....52
Table IV.3 PLC Omron Spesification.....59
Table IV.4 Autofeeder Spesification 59
Table IV.5 Inverter Spesification.....60
Table IV.6 DC Motor Spesification.....60
Table IV.7 Capacitive Sensor Spesification 61
Table IV.8 Limit Switch Spesification 61
Table IV.9 Emergency Button Spesification 62
Table IV.10 Button Spesification.....62
Table IV.11 Indicator Lamp Spesification.....63
Table IV.12 LED Spesification.....63
Table IV.13 Tower Lamp Spesification.....64
Table IV.14 Solenoid Spesification 64
Table IV.15 Support System of CX-Programmer (Omron Software) 70
Table IV.16 PLC 1 Input Address 71
Table IV.17 PLC 1 Output Address.....71
Table IV.18 PLC 2 Input Address 72
Table IV.19 PLC 2 Output Address.....72
Table IV.20 Section Program of Autofeeder 73
Table IV.21 Section Program of Punching Process.....73
Table IV.22 Section Program of Punching Process (Cont.) 74
Table IV.23 Control Panel Box Spesification.....80
Table IV.24 Scenario Testing ImageConverter 82
Table IV.25 Scenario Testing PLC Program 83
Table IV.26 Scenario Testing PLC Program (Cont).....84
Table IV.27 Scenario Testing HMI Program.....84

Table IV.28 Scenario Testing HMI Program (Cont.) 85
Table IV.29 Scenario Testing Model Design 86
Table V.1 Actuator Testing Analysis Result 90
Table V.2 Sensor Testing Analysis Result 91
Table V.3 Sensor Analysis Result (Cont.) 92
Table V.4 Button Testing Analysis Result 93
Table V.5 Button Testing Analysis Result (Cont.) 94
Table V.6 Indicator Testing Analysis 95
Table V.7 Image Converter Analysis Result 109
Table V.8 PLC Program Result 110
Table V.9 Scenario Testing PLC Program (Cont.) 111
Table V.10 HMI Window Analysis Result 116
Table V.11 HMI Window Analysis Result (Cont.) 117
Table V.12 System Advantage Analysis 118
