

## **ABSTRACT**

In visual art , there are several elements contained in it , especially painting , one of which is the form . Along with the development, the need for additional insight into the morphological forms. Still there are various interesting shapes to be used as inspiration in the work , for example, the shape and color of the king cobra snake venom . Although the king cobra is often considered detrimental by the public , but in art there are no restrictions , especially about beauty . What is considered detrimental to society , can be beautiful in art through the composition of shapes and colors.

Keywords : *King Cobra Snake Venom, Shapes and Colors*
