PREFACE

This thesis is made as a completion of the master computer in Informatics. Yours truly has a bachelor degree in Informatics from Telkom University and this thesis is the product of the master period, which is the last part of the Informatics study at Telkom University, Master of Informatics, the School of Computing.

Several persons have contributed academically, practically and with support to this master thesis. I would therefore firstly like to thank my supervisor Prof. Dr. Adiwijaya for their time, valuable input and support throughout the entire master period.

Furthermore I would like to thank for my partner in this research Zahra Putri Agusta for her big help throughout the entire process.

Finally I would like to thank my family and friends for being helpful and supportive during my time studying Informatics at Telkom University.

Bandung, January 2018
