Abstract

Pancasila is the indonesian national identity which the values are contained in pancasila serve as the view of life of nation and state fo every citizen of Indonesian. Therefore, every Indonesian citizen must learn, understand, and practice it in various aspects of life.

Introducing Pancasila since elementary school is very important, because it can helps instill morale so that attitudes and behavior in accordance with the values of Pancasila.

GARUDAKU is a mobile application of introducing Pancasila based on multimedia. Garudaku app supports Multimedia such as video, sound, image and text. In addition to multimedia there is Augmented Reality by using marker as an intermediary in displaying 2D Objects. there are two types of markers, symbol markers to display the symbol of Pancasila and also illustrative images of Pancasila values, and figure markers to display the originators of the basic idea of the state.

Keywords: Pancasila, Moral, Media
