

ABSTRACT

Azizah, Ratnadita Aulia (2018). Background Design for 2D Short Animation “Radio Malabar”. Final Project. Major of Visual Communication Design. School of Creative Industry. Telkom University. Bandung.

Radio Malabar is one of the Dutch's relic in Indonesia that plays an important role in Indonesian's broadcasting and communication history. Radio Malabar is located in Mount Puntang, South Bandung. This radio was the pioneer of amateur radios in Indonesia and one of the radio that took part in announcing Indonesia's independence. However, after the Dutch left, this radio was ruined. Many people know neither the place nor the history of this radio.. Animation background is created for 2D Short Animation Radio Malabar. This background design used animation theory, perspective theory, composition theory, color theory, and lighting theory. The method used in designing this short film is qualitative method in which the data are collected through interviews, observations, and literature studies. The results is background design for 2D short animation “Radio Malabar”.

Keywords: *Radio Malabar, short animation 2D, background*
