

Abstract

Home is the heart of life that should be a source of peace, source of inspiration, and energy source for its owner "MONA SINTIA, SP". The house serves as a place to enjoy a comfortable life, a place to rest, a family gathering place, and a place to show social levels in society. As a building, a room-shaped house bounded by walls and roof. The house has an entrance with a windowless entrance. houses are usually land, tiles, roofs, walls, and other materials.

If it is occupied very long will occur damage that occurred some parts of the room such as cracked walls, leaks, broken ceiling, paint begins to fade, doors or windows damaged. Therefore, it needs to be repaired by using the services of a handyman, usually we call a handyman by phone, send a message or by visiting the repairman's house to make repairs on the damaged house. Sometimes a handyman can not take the job because someone has been using the handyman's service. With the application service of "2r" Home Repair customer can order and solve the problem of damaged house and can see the workman who can do the job.
