ABSTRACT

In this era of globalization, the industry in the field of entertainment in Indonesia has many emerging, including entertainment karaoke. Karaoke activity is used as a means of entertainment to unwind, gathered with friends / family, or just funny singing hobby by the public. In Indonesia itself, a lot of karaoke places in the meet is Family Karaoke. However, despite being named Family Karaoke, most places are not particularly family-friendly, with mature-impressed interior designs acceptable to some, including children. Moreover, the lighting that tends to be less at night and less acoustic system becomes one of the shortcomings that exist in Family Karaoke. Therefore, it takes the right themes and concepts for Karaoke Family interior design to suit all circles, as well as good lighting and acoustic designs.
