

ABSTRACT

In the Dusun Bambu tourism site, there is a place called Glamping that has been popular by the visitors. in Glamping, we can do barbecue together. The Dusun Bambu's staff provides foodstuffs and spices for the barbecue needs.

When the visitors are busy with the barbecue activity, they find difficulties in preparing the materials also burning the food. Learning from that case, we design Food Cart. Food Cart can load grill stuff, charcoal, foodstuffs, spices, cutlery and cleaning tool. By using Food Cart, we don't have to bring our own stuffs and also we can save our time and energy. Food Cart can be mobile and easy to move.

Key Word : Glamping, Barbecue, Food Cart.
