

ABSTRACT

In the city of bandung is the capital of the who is hospitable will with a disability. Of various of the great city which there are in indonesia, in the city of bandung was an outspoken critic of sau a town or city having especially with a disability netra facilities. One of the ways is as on with a disability netra, formerly with a disability netra is an inability on the sense of sight. In the city of bandung several facilities such as central bank bi has approved of a nation lines of guiding block, a red light the dust from the footsteps, and a button to right across. But at the same time, there are still many people do not understand fasilitas-fasilitas reflected the bank sound assets. To execute so that many persons who pervert the, one of the ways is pedagang-pedagang the sub dept has curbed the hip which is on lines of railroad for grades guiding block make easy access for disabled people netra difficult with have the flexibility to use the facilities that already given. Of several it is because, most of the community not fully understand the because of the lack of people the information that they get.
