

PREFACE

Praise to Allah Subhānahu wa ta'alā, the God of the universe, the God of knowledge, the God of power who allows me to complete this final year project and The Messenger of Allah, Prophet Muhammad SAW who made the world full of blessings and peace. Alhamdulillah, the author was able to completely finish the final year project by title of “Designing Competence Model for HR Business Partner PT XYZ by Using Delphi Method”. This final year project formed and submitted in order to fulfill one of graduation requirement for Industrial Engineering Bachelor, Industrial and System Engineering School, Telkom University. The author would like to deliver gratitude to following members:

1. My contentment family, Papa, Mama, Giga, and Glissline who provided great encouragement, enjoyment, and prayers infinitely to the author in order to complete this final year project.
2. Mrs. Litasari Widyastuti Suwarsono, S.Psi., M.Psi. and Mr. Dr. Ir. Christanto Triwibisono, M.M. as author's supervisors who provided encouragement, directions, suggestion, and patient to complete this final year project.
3. Human Resource Development team of PT XYZ who allowed the author permission to conduct research, provided the author accesses, facilities, times, and supports in the completion of final year project.
4. Rika Ismalia as author's beloved person who kindly and patiently support the author in order to finish this final year project.
5. My inner circle, strong-bonding friends who are passionately support the author to finish this final year project as soon as possible.

Although this final year project has been finished, the author realizes that there is no such thing as perfect thing. The author is kindly accept critics or suggestions through email:
