

ACKNOWLEDGMENTS

Praise and Gratitude for the presence of Allah SWT, because of His blessings and grace so that the writer can complete this thesis. Do not forget the prayer and greetings of the bulk writer bestowed on the Prophet Muhammad. In the process of work and preparation of this final assignment, the authors get guidance and support that is not small from various parties. Therefore, the author would like to express his deepest gratitude to:

1. The parents of the writer, Mr. Dadang Sutisna and Ms. Heni Rusniati, as well as the two younger brothers, Farishadi Mufakkir Azizy and Femalia Anindya Triazkamila who always sincerely offer prayers and give support and give confidence to the author when it is difficult to return to work on the thesis
2. Mr. Prof. Adiwijaya, as mentor I who has very much helped the author in carrying out this final assignment and always guides and reminds the author of every progress that the writer must do. Thank you, Sir, I'm sorry if during this final project there are still many shortcomings.
3. Mr. Mohamad Syahrul Mubarak (alm), who always takes the time to provide guidance and knowledge to the author and also greatly helps the writer to understand what must be done. May his charity and worship be accepted by Allah SWT.
4. The entire family of Artificial Intelligence Laboratories that have provided a lot of new knowledge to the author, especially to Lab coach Mr. Anditya Arifianto and do not forget the friends of the AI Lab who cannot be mentioned one by one.
5. Vebby Clarissa, who always accompanies and motivates the author in carrying out this thesis, and also helps the author to always be better.
6. All other parties that cannot be mentioned one by one who have helped the author in the work and preparation of this final assignment.
