

## **ABSTRACT**

*The company's value reflects how the company's management in managing the company. Important companies pay attention to the value of the company, because the value of the company that is reflected by the stock price can be one of the investors' reference in investing their capital. The better the stock price, the higher the level of prosperity of investors. In addition, corporate governance can also be a reference for investors who want to invest their capital.*

*This study aims to determine the effect of Institutional Ownership, Board of Directors, Independent Commissioners and Audit Committees on the value of companies in companies listed in the SRI-KEHATI index for the period of 2016-2018. Company value in this study was proxied using Tobin's Q.*

*The type of data used in this study is secondary data in the form of annual reports. Based on the sampling criteria that have been determined, 20 companies are obtained, so the analyzed research data are 64 data. Data analysis techniques using panel data regression and hypothesis testing using EViews software 10. In this study the independent variables namely Institutional Ownership, Board of Directors, Independent Commissioners and Audit Committee simultaneously. Partially influential is only the independent commissioner variable.*

*Keyword: GCG, company value, Tibin's Q*
