Almost every Indonesian people know Batik, Batik is a clothes that its motifs made by blocking the line with candles , but not everyone know that batik motifs has its philosophy especially batik classic that contains many advice for human being , so that inspired us to make 2D Animation film as a way to inform people for batik philosophy. Background in 2D Animation is to help the story going well, with the planning method that include observation, literature, and interview with some experts in batik about batik classic, batik pesisiran and batik tulis from DIY Yogyakarta. The result of the method is background museum batik and dunia batik that inspired from batik tulis. Keratonan Yogyakarta, Hutan pinus Yogyakarta, museum batik Yogyakarta is the main location of the observation. the designs of background museum batik Yogyakarta is inspired by batik tulis that has a warm color and sketchy lining and the dunia batik is inspired by batik pesisiran that has more freestyle and has more straight forward shape than the batik klasik, but the color still using natural color from batik klasik that's make the harmony for both of designs.

Keywords : Batik Tulis, Batik Pesisiran, Batik Klasik, philosophy, background, 2D Animation.
