

ABSTRACT

The Music performance building aims to facilitate music activities, especially in Bandung, which annually increases music event. Modern music that is increasingly in demand by the people in Bandung. But the facilities in the form of a building for a modern music performance in Bandung have not supported. Due to the lack of supporting facilities and the use of acoustic in the auditorium that has not been maximized. Therefore, the need for an Interior Design of Modern Music Performance Building in Bandung.

The Purpose of the Interior Design of Modern Music Performance Building in Bandung is to facilitate a music program that can be enjoyed from the viewer and performance, allowing visitors and performances to interact socially and maximize the acoustic of a performance hall, especially modern music.
