

## DAFTAR ISI

|                                     |      |
|-------------------------------------|------|
| LEMBAR PENGESAHAN .....             | i    |
| LEMBAR PERNYATAAN ORISINALITAS..... | ii   |
| IDENTITAS BUKU.....                 | iii  |
| ABSTRAK.....                        | iv   |
| ABSTRACK.....                       | v    |
| KATA PENGANTAR.....                 | vi   |
| UCAPAN TERIMAKASIH.....             | vii  |
| DAFTAR ISI.....                     | viii |
| DAFTAR GAMBAR.....                  | xi   |
| DAFTAR TABEL.....                   | xiii |
| DAFTAR ISTILAH .....                | xiv  |
| DAFTAR SINGKATAN .....              | xv   |
| BAB I .....                         | 1    |
| PENDAHULUAN.....                    | 1    |
| 1.1    Latar Belakang.....          | 1    |
| 1.2    Tujuan dan Manfaat .....     | 2    |
| 1.3    Rumusan Masalah.....         | 2    |
| 1.4    Batasan Masalah .....        | 3    |
| 1.5    Metodologi .....             | 3    |
| 1.6    Sistematika Penulisan.....   | 3    |
| BAB II .....                        | 5    |
| DASAR TEORI .....                   | 5    |
| 2.1    Cermin.....                  | 5    |

|  |   |    |
|--|---|----|
| 2.2  | <i>Voice recognition</i> .....  | 5  |
| 2.3  | Raspberry Pi 3 Model B .....  | 6  |
| 2.2  | Firestore .....   | 6  |
| 2.3  | Dialogflow.....   | 7  |
| 2.4  | Node MCU ESP8266.....   | 8  |
| 2.5  | Relay 5V 4 Chanel.....  | 8  |
| 2.6  | Action on Google.....   | 9  |
| 2.7  | Monitor Komputer .....  | 9  |
| 2.8  | Firestore CLI ( <i>Command Line Interface</i> ).....                          | 10 |
| 2.9  | <i>Google Assistant</i> .....   | 10 |
| 2.10   | <i>One Way Mirror Sticker</i> .....   | 10 |
| BAB III.....                                 |   | 11 |
| PERANCANGAN SISTEM <i>SMART MIRROR</i> ..... |   | 11 |
| 3.1  | Blok Diagram Sistem Smart Mirror.....   | 11 |
| 3.2  | Tahapan Perancangan Sistem Smart Mirror .....                                 | 12 |
| 3.3  | Diagram <i>Activity Smart Mirror</i> .....                                    | 14 |
| 3.4  | Tahapan Konfigurasi Sistem <i>Voice Recognition</i> .....                     | 15 |
| 3.4.1  | Menghubungkan Firestore dengan Action on Google.....                          | 15 |
| 3.4.2  | Penautan Akun Google.....   | 16 |
| 3.4.3  | Pembangunan Kode Perintah .....   | 18 |
| 3.4.4  | Penambahan Kata Menggunakan Dialogflow .....                                  | 21 |
| 3.4.5  | Penulisan Kode ArduinoIDE .....   | 22 |
| 3.5  | Tahapan Konfigurasi Sistem <i>Smart Mirror</i> pada <i>Raspberry Pi</i> ..... | 25 |
| 3.5.1  | Penginstalan Software Smart Mirror.....                                       | 25 |
| 3.5.2  | Penginstalan <i>Google Assistant</i> di <i>Raspberry Pi</i> .....             | 26 |
| 3.5.3  | Penulisan Kode Pada <i>Smart Mirror</i> .....                                 | 30 |

|   |    |
|---|----|
| 3.6 Perancangan <i>Hardware</i> .....                         | 39 |
| A. Perancangan Hardware Node MCU .....                        | 40 |
| B. Perancangan Hardware Smart Mirror.....                     | 41 |
| 3.7 Analisis Kebutuhan <i>Software</i> .....                  | 43 |
| 3.8 Skenario pengujian .....                                  | 44 |
| BAB IV.....   | 45 |
| PENGUJIAN DAN ANALISIS SISTEM <i>SMART MIRROR</i> .....       | 45 |
| 4.1 Pengujian Terhadap Intensitas Suara .....                 | 46 |
| 4.2 Pengujian Terhadap Fungsi Sistem.....                     | 47 |
| 4.3 Pengujian Terhadap Penerimaan dan Pengiriman Data .....   | 48 |
| 4.4 Pengujian Terhadap Jarak Respon <i>Smart Mirror</i> ..... | 49 |
| BAB V KESIMPULAN DAN SARAN .....                              | 51 |
| 5.1 Kesimpulan.....   | 51 |
| 5.2 Saran .....   | 51 |
| DAFTAR PUSTAKA.....   | 52 |
| LAMPIRAN.....   | 54 |
