

FOREWORD

Assalamualaikum wr. wb.

Thank Allah SWT because of His mercy the author can complete the Final Project with title Designing and Implementing Mini Project Master Plan for Developing E-Learning Content for Project Management Course (Case Study: Resources Management) as a condition of completing the Bachelor of Industrial Engineering in Telkom University.

The preparation and completion of this practical work report is expected to be useful for the reader. Completion of this report cannot be separated from the help and support of various parties. Therefore, the author would like to thank:

1. Papa, Mama, my brothers, and the whole family of writers who always provide prayer and motivation during the making of Final Project.
2. Mrs. Devi Pratami, S.T., M.T. and Mr. Muhammad Azani Hasibuan, S.Kom, M.T.I as Advisors of the writer who have provided free time and energy to give advice, guidance, and direction to the writer.
3. Kenanda A. S., Miftahul Fathia, and Ketmanto as team members of design sprint that helped the author complete the Final Project.
4. Mr. Wawan Tripiawan, S.T., M.T. as Project Management course lecturer who happened to be the interviewee for expert of design sprint in this Final Project.
5. Arief Kalam, Medianti, Kautsar, Bhagas, Luthfi, Muflih, Dhimas who helped writer to obtain data from users for design sprint in this Final Project.
6. Work Design and Ergonomics Assistants Laboratory colleagues for the support so the writer could finish the Final Project.
7. Classmates of TI 39-01 who have supported writer in the completion of this Final Project.
8. And all parties that cannot be mentioned one by one which has helped the writer complete this Final Project.

Although this final project still has many shortcomings, but the writer expects this final project can be useful for the writer and the readers, especially in Industrial Engineering, Telkom University.

Wassalamuaikum wr. wb.
