

## ***ABSTRACT***

*Ergonomics as one element that needs to be considered in relation to human activities. With the presence of ergonomics, human activities can be maximized because they are in accordance with factors that can influence the results of the activities they do. Based on observations on the mosque's yard, many visitors carry their luggage. Many visitors leave their items in the luggage storage locker but the condition is still a mess. Due to the awareness of visitors who are still lacking or supporting facilities that are still complicated or safekeeping of goods that are far away from their place so that they need special space for supporting facilities for storing goods to be more comfortable and efficient when visiting the mosque.*

*Keywords: Ergonomics, Shape, Goods storage area*
