

ABSTRACT

Entrepreneurship plays a vital role in building the economy and job creation. Entrepreneurship can be introduced through an educational institution so that an individual's independence can be formed from an early age and become a provision for the future. Pondok Pesantren Daarut Tauhiid is also implementing entrepreneurship activities to their santri (student) as a form of independence, learning, and activities. Nowadays, entrepreneurship has developed and covers many factors and aspects of life, in line with the increasingly important role of entrepreneurship in various fields' success. The concept of Humane Entrepreneurship is the mindset and behavior that accelerated the development of capability with a concept of developing entrepreneurship that allows companies to identify existing problems and innovate through the strengths of the individuals themselves.

Through this research done in Pondok Pesantren Daarut Tauhiid, an analysis of the Humane Entrepreneurship concept is done on the entrepreneurship activities in the pesantren (Islamic boarding school). The purpose is to acknowledge, analyze, and describe the implementation of the humane entrepreneurship concept in the Pondok Pesantren Daarut Tauhiid. The qualitative method's data collection is done through observation and field interviews with related sources in the pesantren. The data analysis technique that is used is descriptive and interactive analysis.

The result of this research indicates that the Humane Cycle and Enterprise Cycle affect entrepreneurship in Daarut Tauhiid Islamic Boarding School. Daarut Tauhiid has implemented Humane Entrepreneurship through its humane oriented management of pesantren entrepreneurship which aims at entrepreneurial growth, pesantren independence, and ability development.

Keywords: Entrepreneurship, Boarding School, Islamic Boarding School, Humane Entrepreneurship, Humane Cycle, dan Enterprise Cycle.
