

Abstract

This research is entitled Communication Patterns of Cultural Acculturation of Suku Anak Dalam Who Leave their Community. This study aims to determine how the tribal communication pattern of the Suku Anak Dalam when they leave their community in the forest so that the existing culture acculturates modern culture, because what we know is that the Suku Anak Dalam is closed and chooses to isolate themselves in the forest. This study uses a qualitative research methodology, collecting data through interviews with the Suku Anak Dalam who have left and migrated and with influential figures in advancing the Suku Anak Dalam. This study finds a result of how the communication patterns used by the pioneers who brought the Suku Anak Dalam out of the Suku Anak Dalam cultures were preserved in the midst of modern society.
