

## **ABSTRACT**

SMAIT Boarding School is an Islamic-based educational institution that requires students to carry out their activities 7/24 hours within the school environment. SMAIT Insan Mandiri Cibubur is a boarding school for students only with a full day boarding system where student activities are carried out in a boarding school environment. The effectiveness of circulation in the school environment needs to be considered to support learning activities more efficiently in the school and dormitory areas. Circulation efficiency and effectiveness are expected to make it easier for users to carry out activities in the school environment
