

LIST OF FIGURES

Figure 2.1 IP Camera	6
Figure 2.2 Show the capture of IP Camera streaming in the browser.....	7
Figure 2.3 Database table in MySQL.....	9
Figure 2.4 The zenith angle of the sun	10
Figure 3.1 The System Performance Circuit.....	15
Figure 3.2 System Block Diagrams.	15
Figure 3.3 WeMos D1 R2.	16
Figure 3.4 PING HCSR04 Ultrasonic Sensor.	16
Figure 3.5 Display of Digital Signage Information.	17
Figure 3.6 Blocks of Distance Detection Sensor Diagrams.	18
Figure 4. 1 The Prototype of Smart Signage.....	24
Figure 4. 2 The Internal Circuit of Smart Signage Prototype.	25
Figure 4. 3 The Scheme of Product Circuit.....	25
Figure 4. 4 The Preview of WordPress Interface.	26
Figure 4. 5 The XAMPP Software.....	27
Figure 4. 6 The Preview of MySQL phpMyAdmin Database.	27
Figure 4. 7 The Preview of VLC Software.	28
Figure 4. 8 The preview of the video that was sent through RSTP Protocol.....	28

Figure 4. 9 The Python Program Running.	28
Figure 4. 10 The Diagram of System Testing Process.....	29
Figure 4. 11 Maximum distance which can be detected by sensor.....	30
Figure 4. 12 The wifi connection was succeeded.	31
Figure 4. 13 The Preview of Xampp Software Starting.....	32
Figure 4. 14 The localhost/dashboard URL could be accessed.	32
Figure 4. 15 The localhost/phpMyAdmin URL could be accessed.	32
Figure 4.16 The server on the left side and the hardware on the right.....	33
Figure 4. 17 Throughtput Chart	33
Figure 4.18 Delay Chart.....	34
Figure 4. 19 When an object is detected.	35
Figure 4. 20 When there is no object.	35
Figure 4. 21 Background process when there is an object.....	35
Figure 4. 22 Background process when there is no object.....	36
Figure 4. 23 System response time, sensor covered by object.....	36
Figure 4. 24 System response time, object is moved from front of sensor	36
