

ABSTRACT

Interior Redesign Of Supporting Facilities Of Balikpapan Arts Building

Balikpapan City

Gedung Kesenian Balikpapan (Balikpapan Arts Center) is one of the buildings who built by the Balikpapan city with the aim of increasing the tourism sector especially in arts. The buildings serves as a place to facilitate artist to display works of art such as dance, music, painting exhibitions, and others. However, due to the lack of public understanding of art and also the function of this building, the Balikpapan Arts Building is more often used for commercial events than arts events. The facilities provided are also arguably still not up to standard that the artists feel that they are not suitable for the use of the Balikpapan Arts Building. With these problems, the redesign this time can make the art building better known for its correct function and also the artist will feel comfortable with facilities that meet the standards so that they can show their best appearance.
