Resort is a place for relaxation or recreation, attracting visitors for a vacation. A resort is also a place, town or sometimes a commercial building operated by a company. Resort Pangrango is an inn located in the recreational area of the beautiful Sukabumi City, and stands on an area of 5 hectares. This resort is located at the foot of Mount Pangrango with very cool and authentic natural conditions, as well as various natural attractions that are very beautiful and interesting to enjoy. Sundanese culture will be an idea that will be used to form the atmosphere of space in several buildings at this resort hotel. The design of this resort hotel is limited to the Lobby, Restaurant and Room areas. The building area of this resort hotel is adequate for 1000-2000m², the area of this location is very suitable for making the facilities and infrastructure of this resort hotel. The furniture at this resort hotel uses wood according to the design that became the idea and idea of this design. This study analyzes the resort and the activities of staff and visitors. direct observation data collection, interviews, and comparisons with other resorts that are equivalent to the resorts being analyzed, through the research process it is hoped that it can help improve existing facilities at Pangrango Sukabumi Resort.
