ABSTRACT

VISUALIZATION OF OBESITY AS AN IDEAS IN THE CREATION OF THREE-DIMENSIONAL ARTWORK

The creation of this work aims to provide insight and images and solutions to the reader and art connoisseurs, especially obese sufferers. Where fatness causes bad people's health and is a result of eating and living patterns that are not good. Consuming fast food and not infrequent nutritious activities in the body become the leading cause of a person is easy to experience obesity. Obesity is a condition where the number of calories entered is larger than the body needed in other words there is a build up of fat in the body so that a person's weight exceeds the standard limit. the writer tried to visualize it through a three-dimensional artwork with the installation art.
